

Lunch & Learn

Thursday, September 6
11 a.m.

Anderson Fellowship Hall at The Heritage

Understanding Dementia & Alzheimer's Disease

Do you wonder what is happening in the mind of your loved one living with memory impairment? This session explains—in easy-to-understand terms—what the differences are between dementia and Alzheimer's disease, what physical changes are happening to a person with memory impairment, and how to best understand and be understood by the person living with a dementia-related disease.

This session is filled with plenty of "A-ha Moments," and there will be time for Q&A and a tour at the conclusion.

RSVP by August 30.
