

To our Faculty & Staff of Thiel College,

Cancer is something we simply cannot ignore. One in two men and one in three women are expected to be diagnosed with cancer in their lifetime. It is a terrible, destructive disease that impacts the lives of so many close to us.

This year, the Relay For Life of Thiel College Leadership Team is hard at work getting ready for our annual Relay For Life event to raise funds for the American Cancer Society in the fight against cancer. Cancer is something that has affected this campus and we all need to band together to see an end to it.

We would like to personally invite you to attend our Olympic themed Relay For Life event which will take place this year on Saturday, April 22nd 2017 from 3pm -9pm in Alumni Stadium. We invite you to join us in walking a few laps around the field, seeing each one of our Relay Team's tables and participating in our Chinese Auction Raffle.

In addition, you can become personally involved in a few easy ways. First, wearing purple and talking about Relay throughout the month of April to spread awareness of the event. Secondly, start or join a faculty team, these can be building teams, department teams, or join a student organization team. Lastly, bring your friends or family to casually take part the day of event.

To make a donation or to see what our Relay For Life is planning, please feel free to visit www.relayforlife.org/pathielcollege or like us on Facebook "Relay For Life Thiel College"

See You On April 22nd,
Nicholas McNutt
Relay For Life of Thiel College Chairman
